

Right of Entry

Site Entry Compliance and Contractor Mobilisation

- Spending too much time chasing up site entry documentation for new arrivals?
- Are you sure that you have up to date compliance information for everyone on site?

Maybe Right-Of-Entry™ can help!

Right-Of-Entry (ROE) is a web based program designed specifically to help you ensure all personnel coming to your site are in full compliance with all pre-requisite conditions, and that these compliances are kept up to date.

ROE is designed to be used by Security personnel, Travel Coordinators or anyone who is responsible for maintaining site entry compliance information, or mobilising groups of personnel.

Right-Of-Entry : Check Status

Search and select a person from the list, by either first name or lastname, and their Right-Of-Entry status will be displayed.

Search Person : Aargent, Alice Job Role : Contractor Full Time

Access Condition Name	Access Condition Description	Approval Type	Condition Status
Contractor Training	First Aid and CPR and WHMIS	Pre-Arrival	Submitted
Medical	Full Medical to be completed and signed off by medical professionals	Pre-Arrival	Build
Security Clearance	Criminal History BackCheck / finger prints for new employees / credit check for level 2 employees and higher	Pre-Arrival	Submitted
Medic Questionnaire	Medical Questionnaire	On-Arrival	Expires 31-Oct-15

Aargent, Alice
Acme Inc
Job Role : Contractor Full Time

Entry is NOT GRANTED

Right-Of-Entry provides:

- **Streamlined Mobilisation** – The entry status for each person is easily accessible. Colour coded “traffic lights” quickly indicate the conditions that are not yet completed.
- **Authorisation Control** – Entry conditions and documents are viewed and approved only by authorised users before getting the “green light”.
- **Configurability** – Unlimited Entry Conditions, Job Roles and Requests can be created to cover every type of Job Role and Entry Requirement
- **Data Security** – All information is restricted to only that which users are authorised to view. Departmental users can only view data for people in their department. External Company users can only view data for people in their company
- **Reduced Clerical Work** – Departmental supervisors and Labour Supply Companies can keep details about themselves and their own people up to date.
- **Auditability** – All updates and modifications are tracked and are completely traceable. A complete history of all people and entry condition, including documents / certificates / license, can be produced if and when required.
- **Automated Reminders** – E-mails and Action Items are automatically generated when entry conditions are about to expire, or approval actions are required
- **Reporting** – A suite of standard reports are supplied. Additional customised reports can easily be added when required. All reports can be viewed online, printed or exported to PDF or Excel
